1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-4 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 10-5-2005.
3. Claim 5 is objected to because of the following informalities: In claim 5, line 12, the semicolon at the end of the line should be changed to a period (the period having been deleted at the end of the claim). Appropriate correction is required.
4. Claim 5 is rejected under 35 U.S.C. 102(a/e) as being anticipated by Byerley (US 6,457,505).

Byerley discloses a tire building drum including a central screw (40), a pair of inflatable turn-up bladders (357), a central segment support mechanism having a plurality of radially expandable segments (136) with cam followers (144, 150) in engagement with surfaces of a cone mechanism (200) actuatable by a piston member (228 - col. 9, lines 32-36), a pair of bead locks (340, 400, etc.) each mounted on an axially movable housing (102, 104) connected to the central screw (e.g. col. 7, lines 11+). Further, the piston member 228 for the cone mechanism is clearly operable independent of the central screw. A drum that anticipates the claim as amended is therefore suggested.

5. Applicant's arguments with respect to claim 5 have been considered but are moot in view of the new ground(s) of rejection necessitated by the extensive amendments to the claims.

Art Unit: 1733

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
